

DNEP CLIMATE SURVEY

Delaware Nation Environmental is conducting a climate survey to obtain community opinion regarding climate and we want to know what you think. Climate is the accumulation of daily and seasonal weather events over a long period of time (weeks, months, years and longer). Includes weather and weather extremes (heat waves, cold spells, tornado count). This is one of many tools that will be utilized to help develop a climate vulnerability assessment for the Nation which will help identify climate concerns, potential impacts, related actions and choices. If you could please fill out and return the form to vdelarosa@delawarenation.com or deliver in person. Your participation is greatly appreciated. *Thank you, Victoria De La Rosa-Feliciano, Air Coordinator*
